

Lifescience Talent Forum

A Virtual Hub for the Next Generation of Scientists

We are building the Lifescience Talent Forum, an exclusive online space within Talent Tweak's Virtual Research Academy. Launching in 2026, this forum will connect life science students, early-career researchers, and professionals in a collaborative community focused on growth, learning, and sharing science.

WHO WE ARE

Talent Tweak is a global Virtual Research Academy built to empower students, early-career researchers, and scientists.

We combine skill-based training, mentorship, community forums, events, and publishing to help researchers grow into confident and impactful scientists.

[Exclusive Pre-Registration Benefits](#)

Abstract Selection & Showcasing – Submit your work early for inclusion in Proceedings and feature presentations.

Priority Updates – Be the first to hear about platform features, courses, and upcoming events.

Exclusive Access – Early entry to selected forum activities and previews designed for founding members.

Founding Recognition – Officially acknowledged as part of the first wave of members shaping the Lifescience Talent Forum.

Forum Members Benefits

Scientific Community Forum

- Peer-to-peer scientific discussions
- Mentorship & collaboration
- Topic-focused groups in life sciences

Publishing Opportunities

- Talent Tweak Publishing
- ISSN for each series (Proceedings, Perspectives, Journal)
- DOI for every published article or abstract
- Global visibility & citation tracking

Events & Engagement

- Monthly Science Share Meetings
- Quarterly Online Symposiums
- Webinars & Workshops
- Career developments in science

Courses & Training

- Scientific Foundations
- Research skills and principals
- Soft skills for life scientists
- Professional Skills
- Career Navigation
- Personal Development
